

A **hazard** is potential danger or a risk that might occur and cause an accident. Hazards can usually be prevented.

hazard

What keeps us safe?

emergency

An **emergency** is a serious, unexpected and often dangerous situation which needs immediate action!

injury

risk

safe

When we are **safe** it means that we are protected from danger or risk. We have people who make us safe and places that make us safe. Can you name a safe place to you?

health

There are things that we do in our daily routines to keep us safe and healthy such as drinking water, washing our hands, and looking before we cross the road.

accident

permission

unsafe

In an emergency, different people can help us. When we call 999, we can speak to the police, ambulance service, coastguard or fire brigade.

Permission is when we officially allow someone to do something. "You have permission to go to the toilet".

uncomfortable

We all have people in our lives who help to keep us safe.

Draw somebody who makes you feel safe:

Responsible Rabbit reminds us to be responsible for ourselves and our environment to ensure that we keep safe and avoid accidents.

Respectful Rhino reminds us to respect ourselves and others to keep them safe. We must respect each other's bodies

Key Questions

What people keep you safe?

What do we do if we have an accident?

How do we prevent a hazard?

What do we do in an emergency?

Who can help us in an emergency?

How do we keep our bodies safe?

Why do we keep some parts of our body private?
